# Barnyard Classifieds

## EDITOR's NOTES:

Barnyard Classifieds started as a local paper but the subscription fee allowed anyone to get the paper in the US. This created a mix of local advertising with national interest. A local paper is good for advertising local events, yard sales. A national paper is good for selling high value items, farm equipment, livestock, specialty breeds, anything where potential buyers are spread out in a wider area.

This week 94 boxes of free copies will be shipped to 8 different states. Some places pass out over 200 copies, some places 60 copies, some places maybe only 15 copies.

In order to ship these boxes to anyone who is interested, while at the same time only shipping to those locations that are the most beneficial to advertisers, we are now charging a simple fee. This gives everyone the option of handling free copies on their counters, even if they only want a few copies. The responsibility to decide if the copies are worth it at each location is now on the business owner, naturally targeting the best areas where readers want to pick up copies.

The goal is connecting serious sellers with serious buyers while maintaining maximum efficiency and low ad rates.

Handling free copies on your counter is a great way to advertise your business, directing customers to your place for fresh copies. The Business Name and Phone and Address is published in each issue. The fee is \$150 for the year. 26 shipments. Comes to \$5.76 per issue. Cheaper than the smallest word ad! Plus you get as many copies as needed to keep your customers happy!

The boxes come in quantities of 30 or 60 copies and arrive quicker than the mail. Currently we are trying out Priority Mail, but if there are problems with delivery we can switch back to UPS for the most dependable delivery times.

The half page on the front cover is available on bids. The minimum bid is \$10 to get on the front (plus the half page price of \$180). Recently it has been going for \$30. Photo ad spots on the front cover are now \$70 each due to demand.

If an ad does not have an address, only a phone number, buyers will need to call that number or ask a neighbor to call the number for them. We do not respond to letters asking for the addresses of advertisers. Sometimes the advertiser does not want to communicate by mail and Barnyard Classifieds will respect the advertiser's preferred method of communication.
